

IIFL Securities Pte. Ltd.

**Independent auditor's report
For the financial year ended 31 March 2015**

Independent auditor's report to the member of IIFL Securities Pte. Ltd.

Report on the financial statements

We have audited the accompanying financial statements of IIFL Securities Pte. Ltd. (the "Company") set out on pages 6 to 25, which comprise the balance sheet as at 31 March 2015, and the statement of comprehensive income, statement of changes in equity and cash flow statement for the year then ended, and a summary of significant accounting policies and other explanatory information.

Management's responsibility for the financial statements

Management is responsible for the preparation of financial statements that give a true and fair view in accordance with the provisions of the Singapore Companies Act, Chapter 50 (the "Act") and Singapore Financial Reporting Standards, and for devising and maintaining a system of internal accounting controls sufficient to provide a reasonable assurance that assets are safeguarded against loss from unauthorised use or disposition; and transactions are properly authorised and that they are recorded as necessary to permit the preparation of true and fair profit and loss accounts and balance sheets and to maintain accountability of assets.

Auditor's responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with Singapore Standards on Auditing. Those standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation of the financial statements that give a true and fair view in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

IIFL Securities Pte. Ltd.

**Independent auditor's report

Independent auditor's report to the member of IIFL Securities Pte. Ltd.

Opinion

In our opinion, the financial statements of the Company are properly drawn up in accordance with the provisions of the Act and Singapore Financial Reporting Standards so as to give a true and fair view of the state of affairs of the Company as at 31 March 2015 and the results, changes in equity and cash flows of the Company for the year ended on that date.

Report on other legal and regulatory requirements

In our opinion, the accounting and other records required by the Act to be kept by the Company have been properly kept in accordance with the provisions of the Act.

The accompanying accounting policies and explanatory information form an integral part of the financial statements.

1. Corporate information

IIFL Securities Pte. Ltd. (the "Company") is a private limited company incorporated in the Republic of Singapore whose registered office is at 6 Shenton Way, #18-08B OUE Downtown 2, Singapore 068809. It is a wholly-owned subsidiary of IIFL (Asia) Pte. Ltd., a company incorporated in Singapore (the "immediate holding company"). The ultimate holding company is IIFL Holdings Limited (the "ultimate holding company"), a company incorporated in India, listed on the National Stock Exchange of India Limited and the Bombay Stock Exchange Limited.

The principal activity of the Company is to carry on its business in corporate finance advisory services and dealing in securities.

On 14 May 2009, the Company obtained its Capital Market Services ("CMS") License from the Monetary Authority of Singapore ("MAS") to conduct regulated activities such as: (1) dealing in securities; and (2) advising on corporate finance. On 5 August 2013, the Company received its revised CMS License from MAS to conduct the regulated activities in dealing in securities.

2. Summary of significant accounting policies

2.1 *Basis of preparation*

The financial statements of the Company have been prepared in accordance with Singapore Financial Reporting Standards ("FRS").

The financial statements have been prepared on a historical cost basis except as disclosed in the accounting policies below.

The financial statements are presented in Singapore dollars ("SGD" or "S\$").

2.2 *Changes in accounting policies*

The accounting policies adopted are consistent with those of the previous financial year except in the current financial year, the Company has adopted all the new and revised standards that are effective for annual periods beginning on or after 1 April 2014. The adoption of these standards did not have any effect on the financial performance or position of the Company.

Notes to the financial statements
For the financial year ended 31 March 2015

2. Summary of significant accounting policies (cont'd)

2.3 Standards issued but not yet effective

The Company has not adopted the following standards that have been issued but not yet effective:

Descriptions	Effective for annual periods beginning on or after
Amendments to FRS 19 <i>Defined Benefit Plans: Employee Contributions</i>	1 July 2014
Improvements to FRSs (January 2014)	
(a) Amendments to FRS 102 <i>Share Based Payment</i>	1 July 2014
(b) Amendments to FRS 103 <i>Business Combinations</i>	1 July 2014
(c) Amendments to FRS 108 <i>Operating Segments</i>	1 July 2014
(d) Amendments to FRS 16 <i>Property, Plant and Equipment</i> and FRS 38 <i>Intangible Assets</i>	1 July 2014
(e) Amendments to FRS 24 <i>Related Party Disclosures</i>	1 July 2014
Improvements to FRSs (February 2014)	
(a) Amendments to FRS 103 <i>Business Combinations</i>	1 July 2014
(b) Amendments to FRS 113 <i>Fair Value Measurement</i>	1 July 2014
Amendments to FRS 27 <i>Equity Method in Separate Financial Statements</i>	1 January 2016
Amendments to FRS 16 and FRS 38 <i>Clarification of Acceptable Methods of Depreciation and Amortisation</i>	1 January 2016
Improvements to FRSs (November 2014)	
(a) Amendments to FRS 105 <i>Non-current Assets Held for Sale and Discontinued Operations</i>	1 January 2016
(b) Amendments to FRS 107 <i>Financial Instruments: Disclosures</i>	1 January 2016
(c) Amendments to FRS 19 <i>Employee Benefits</i>	1 January 2016
Amendments to FRS 110 and FRS 28 <i>Sale or Contribution of Assets between an Investor and its Associate or Joint Venture</i>	1 January 2016
Amendments to FRS 1 <i>Disclosure Initiative</i>	1 January 2016
Amendments to FRS 110, FRS 112 and FRS 28 <i>Investment Entities: Applying the Consolidation Exception</i>	1 January 2016
FRS 115 <i>Revenue from Contracts with Customers</i>	1 January 2017
FRS 109 <i>Financial Instruments</i>	1 January 2018

The directors expect that the adoption of the standards above will have no material impact on the financial statements in the period of initial application.

2. Summary of significant accounting policies (cont'd)

2.4 Significant accounting judgements and estimates

The preparation of the Company's financial statements requires management to make judgements, estimates and assumptions that affect the reported amounts of revenues, expenses, assets and liabilities and the disclosure of contingent liabilities at the end of each reporting period. Uncertainty about these assumptions and estimates could result in outcomes that require a material adjustment to the carrying amount of the asset or liability affected in the future periods.

Key sources of estimation uncertainty

The key assumptions concerning the future and other key sources of estimation uncertainty at the end of the reporting period, that have a significant risk of causing a material adjustment to the carrying amount of assets and liabilities within the next financial year are discussed below:

Depreciation of property, plant and equipment

The cost of property, plant and equipment is depreciated on a straight-line basis over their useful lives. Management estimates the useful lives of these property, plant and equipment to be between 3 to 5 years. The carrying amount of the Company's property, plant and equipment at 31 March 2015 was S\$75,668 (2014: S\$102,413). Changes in the expected level of usage and technological developments could impact the economic useful lives and the residual values of these assets, therefore future depreciation charges could be revised.

2.5 Functional and foreign currencies

(a) *Functional currency*

The management has determined the currency of the primary economic environment in which the Company operates i.e., functional currency, to be SGD. Major costs of providing services including major operating expenses are primarily influenced by fluctuations in SGD.

(b) *Foreign currency transactions*

Transactions in foreign currencies are measured in the functional currency are recorded on the initial recognition in the functional currency at exchange rates approximating those ruling at the transaction dates. Monetary assets and liabilities denominated in foreign currencies are translated at the closing rate of exchange ruling at the end of the reporting period. Non-monetary items that are measured in terms of historical cost in foreign currency are translated using the exchange rates as at the dates of the initial transactions. Non-monetary items are measured at fair value in a foreign currency are translated using the exchange rates at the date when the fair value was determined.

Exchange differences arising on the settlement of monetary items or on translating monetary items at the end of the reporting period are recognised in profit or loss.

2. Summary of significant accounting policies (cont'd)

2.6 Property, plant and equipment

All items of property, plant and equipment are initially recorded at cost. The cost of an item of property, plant and equipment is recognised as an asset if, and only if, it is probable that future economic benefits associated with the item will flow to the Company and the cost of the item can be measured reliably. Subsequent to recognition, property, plant and equipment are measured at cost less accumulated depreciation and accumulated impairment losses.

Depreciation is calculated on a straight-line basis over the estimated useful lives of the assets as follows:

Computers	-	3 years
Furniture and fittings	-	5 years
Office equipment	-	5 years

The carrying values of property, plant and equipment are reviewed for impairment when events or changes in circumstances indicate that the carrying values may not be recoverable.

The residual value, useful life and depreciation method are reviewed at each financial year end, and adjusted prospectively, if appropriate.

An item of property, plant and equipment is derecognised upon disposal or when no future economic benefits are expected from its use or disposal. Any gains or losses on derecognition of the asset is included in profit or loss in the financial year the asset is derecognised.

2.7 Impairment of non-financial assets

The Company assesses at the end of each reporting period whether there is an indication that an asset may be impaired. If any such indication exists, or when annual impairment assessment for an asset is required, the Company makes an estimate of the asset's recoverable amount.

An asset's recoverable amount is the higher of an asset's or cash-generating unit's fair value less costs to sell and its value in use and is determined for an individual asset, unless the asset does not generate cash inflows that are largely independent of those from other assets. In assessing value in use, the estimated future cash flows expected to be generated by the asset are discounted to their present values. Where the carrying amount of an asset exceeds its recoverable amount, the asset is written-down to its recoverable amount.

An assessment is made at the end of each reporting period as to whether there is any indication that previously recognised impairment losses may no longer exist or may have decreased. A previously recognised impairment loss is reversed only if there has been a change in the estimates used to determine the asset's recoverable amount since the last impairment loss was recognised. If that is the case, the carrying amount of the asset is increased to its recoverable amount. That increase cannot exceed the carrying amount that would have been determined, net of depreciation, had no impairment loss be recognised previously. Such reversal is recognised in profit or loss unless the asset is measured at revalued amount, in which case the reversal is treated as revaluation increase.

2. Summary of significant accounting policies (cont'd)

2.8 Financial assets

Financial assets are recognised when, and only when, the Company becomes a party to the contractual provisions of the financial instruments. When financial assets are recognised initially, they are measured at fair value, plus, in the case of financial assets not at fair value through profit or loss, directly attributable transaction costs.

A financial asset is derecognised where the contractual right to receive cash flows from the asset has expired. On derecognition of a financial asset in its entirety, the differences between the carrying amount and the sum of the consideration received and any cumulative gains or losses that have been recognised in other comprehensive income is recognised in profit or loss.

All regular way purchases and sales of financial assets are recognised or derecognised on the trade date i.e., the date that the Company commits to purchase or sell the asset. Regular way purchases or sales are purchases or sales of financial assets that require delivery of assets within the period generally established by regulation or convention in the marketplace concerned.

Loans and receivables

Non-derivative financial assets with fixed or determinable payments that are not quoted in an active market are classified as loans and receivables. Subsequent to initial recognition, loans and receivables are measured at amortised cost using the effective interest method. Gains or losses are recognised in profit or loss when the loans and receivables are derecognised or impaired and through the amortisation process. The Company classifies cash and cash equivalents, amounts due from ultimate holding company, amounts due from immediate holding company, amounts due from related companies, refundable deposits and other receivables as loans and receivables.

2.9 Impairment of financial assets

The Company assesses at the end of each reporting period whether there is any objective evidence that a financial asset is impaired:

Financial assets carried at amortised cost

If there is objective evidence that an impairment loss on financial assets carried at amortised cost has been incurred, the amount of the loss is measured as the differences between the asset's carrying amount and the present value of estimated future cash flows discounted at the financial asset's original effective interest rate. The carrying amount of the asset is reduced through the use of an allowance account. The impairment loss is recognised in profit or loss.

When the asset becomes uncollectible, the carrying amount of impaired financial assets is reduced directly or if an amount was charged to the allowance account, the amounts charged to the allowance account are written-off against the carrying values of the financial assets.

To determine whether there is objective evidence that an impairment loss on financial assets had been incurred, the Company considers factors such as the probability of insolvency or significant financial difficulties of the debtor and default or significant delay in payments.

If in a subsequent period, the amount of the impairment loss decreases and the decrease can be related objectively to an event occurring after the impairment was recognised, the previously recognised impairment loss is reversed to the extent that the carrying amount of the asset does not exceed its amortised cost at the reversal date. The amount of reversal is recognised in profit or loss.

2. Summary of significant accounting policies (cont'd)

2.10 Cash and cash equivalents

Cash and cash equivalents comprise cash on hand and cash at bank.

2.11 Provisions

Provisions are recognised when the Company has a present obligation as a result of a past event, it is probable that an outflow of economic resources will be required to settle the obligation and the amount of the obligation can be estimated reliably.

Provisions are reviewed at the end of each reporting period and adjusted to reflect the current best estimate. If it is no longer probable that an outflow of economic resources will be required to settle the obligation, the provisions are reversed. If the effect of the time value of money is material, provisions are discounted using a current pre tax rate that reflects, where appropriate, the risks specific to the liability. When discounting is used, the increases in the provisions due to the passage of time are recognised as a finance cost.

2.12 Financial liabilities

Financial liabilities include accrued expenses. Financial liabilities are recognised when, and only when, the Company becomes a party to the contractual provisions of the financial instruments. The Company determines the classification of its financial liabilities at initial recognition. All financial liabilities are recognised initially at fair value, and in the case of other financial liabilities, plus directly attributable transaction costs.

Subsequent to initial recognition, all financial liabilities are measured at amortised cost using the effective interest method. For financial liabilities, gains or losses are recognised in profit or loss when the liabilities are derecognised and through the amortisation process. The liabilities are derecognised when the obligation under the liability is discharged or cancelled or expired.

2.13 Employee benefits

As required by law, the Company makes contributions to the Central Provident Fund ("CPF") scheme in Singapore, a defined contribution pension scheme. Contributions to national pension schemes are recognised as an expense in the financial period in which the related service is performed.

2.14 Operating leases

Leases where the lessor effectively retains substantially all the risks and benefits of ownership of the leased item are classified as operating leases. Operating lease payments are recognised as an expense in profit or loss on a straight-line basis over the lease term.

2. Summary of significant accounting policies (cont'd)

2.15 Taxes

(a) Current income tax

Current income tax assets and liabilities for the current and prior periods are measured at the amount expected to be recovered from or paid to the taxation authorities. The tax rates and tax laws used to compute the amount are those that are enacted or substantively enacted by the end of the reporting period, in the country where the Company operates and generates taxable income.

Current income taxes are recognised in profit or loss except to the extent that the tax relates to items recognised outside profit or loss, either in other comprehensive income directly in equity.

(b) Deferred tax

Deferred tax is provided using the liability method on temporary differences at the end of the reporting period between the tax bases of assets and liabilities and their carrying amounts for financial reporting purposes.

Deferred tax assets and liabilities are recognised for all temporary differences, except:

- Where the deferred tax arises from the initial recognition of an asset or liability in a transaction that is not a business combination and, at the time of the transaction affects neither the accounting profit nor taxable profit or loss; and
- In respect of deductible temporary differences and carry-forward of unused tax credits and unused tax losses, if it is not probable that taxable profit will be available against which the deductible temporary differences and carry-forward of unused tax credits and unused tax losses can be utilised.

The carrying amount of deferred tax asset is reviewed at the end of each reporting period and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred tax asset to be utilised. Unrecognised deferred tax assets are reassessed at the end of each reporting period and are recognised to the extent that it has become probable that future taxable profit will allow the deferred tax asset to be recovered.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply to the financial year when the asset is realised or the liability is settled, based on tax rates and tax laws that have been enacted or substantively enacted at the end of the reporting period.

2. Summary of significant accounting policies (cont'd)

2.15 Taxes (cont'd)

(c) *Goods and services tax ("GST")*

Revenues, expenses and assets are recognised net of the amount of GST except:

- (i) Where the GST incurred on a purchase of assets or services is not recoverable from the taxation authority, in which case the GST is recognised as part of the cost of acquisition of the asset or as part of the expense item as applicable; and
- (ii) Receivables and payables that are stated with the amount of GST included.

The net amount of GST recoverable from, or payable to, the taxation authority is included as part of receivables or payables in the balance sheet.

2.16 Share capital and share issue expenses

Proceeds from issuance of ordinary shares are recognised as share capital in equity. Incremental costs directly attributable to the issuance of ordinary shares are deducted against share capital.

2.17 Revenue recognition

Revenue is recognised to the extent that it is probable that the economic benefits will flow to the Company and the revenue can be reliably measured. Revenue is measured at the fair value of consideration received or receivable.

Research and agent fees are accrued upon earning it.

Referral fee is recognised on an accrual basis based on rates determined between the Company and its related parties.

Service income is recognised on an accrual basis between the Company and a related party.

Interest income is recognised using the effective interest method.

Notes to the financial statements
For the financial year ended 31 March 2015

2. Summary of significant accounting policies (cont'd)

2.18 Related parties

A related party is defined as follows:

- (a) A person or a close member of that person's family is related to the Company if that person:
 - (i) Has control or joint control over the Company;
 - (ii) Has significant influence over the Company; or
 - (iii) Is a member of the key management personnel of the Company or of a parent of the Company.
- (b) An entity is related to the Company if any of the following conditions applies:
 - (i) The entity and the Company are members of the same group (which means that each parent, subsidiary and fellow subsidiary is related to the others);
 - (ii) One entity is an associate or joint venture of the other entity (or an associate or joint venture of a member of a group of which the other entity is a member);
 - (iii) Both entities are joint ventures of the same third party;
 - (iv) One entity is a joint venture of a third entity and the other entity is an associate of the third entity;
 - (v) The entity is a post-employment benefit plan for the benefit of employees of either the Company or an entity related to the Company. If the Company is itself such a plan, the sponsoring employers are also related to the Company;
 - (vi) The entity is controlled or jointly controlled by a person identified in (a); or
 - (vii) A person identified in (a)(i) has significant influence over the entity or is a member of the key management personnel of the entity (or of a parent of the entity).

3. Employees' compensation and related costs

Notes to the financial statements
For the financial year ended 31 March 2015

12. Related party transactions (cont'd)

(c) *Receivables*

	2015 S\$	2014 S\$
Amounts due from related companies:		
- IIFL Wealth Management Ltd	—	463,805
- IIFL Private Wealth Mauritius Ltd	225,000	—
- IIFL Capital Pte Ltd	586,000	114,782
- India Infoline Ltd	390,000	1,500,000
	1,201,000	2,078,587

13. Financial assets and liabilities by categories

The carrying amounts of the following categories of financial instruments were as follows:

	2015 S\$	2014 S\$
Financial assets		
Loans and receivables	1,716,257	11,377,730
Financial liabilities		
Financial liabilities measured at amortised cost	138,090	17,610

14. Financial risk management objectives and policies

The management considers that the Company's key financial risks are credit risk, foreign currency risk and liquidity risk.

(a) *Credit risk*

Credit risk is the risk of loss that may arise on outstanding financial assets should a counterparty default on its obligations. The Company's exposure to credit risk arises primarily from amounts due from immediate holding company, amounts due from related companies and other receivables. The cash and cash equivalents are placed with a financial institution with good credit rating.

The Company attempts to minimise its credit risk by evaluating and monitoring the credit exposure to its related parties and other receivables. The Company adopted the policy of only dealing with credit worthy counterparties to mitigate the risk of financial loss from default.

Exposure to credit risk arising from related party transactions is minimal as these companies are of high credit quality and loans are of short duration. The carrying amount of other receivables, refundable deposits and cash and cash equivalents represent the Company's maximum exposure to credit risk. No other financial asset carries a significant exposure to credit risk.

As at the end of the reporting period, there is no financial asset that is past due or impaired or would otherwise be past due or impaired.

14. Financial risk management objectives and policies (cont'd)

(b) Foreign currency risk

Foreign currency risk is the risk that arises from the change in price of one currency against another because of changes in foreign currency exchange rates.

The Company is exposed to movements in the foreign currency exchange rates other than in its functional currency, the SGD. The Company reviews its exposure to foreign currency risk on a regular basis.

As at 31 March 2015, the Company's cash and cash equivalents and other receivables are exposed to approximately S\$302,830 (2014: S\$8,187,913) of United States dollars ("USD" or "US\$").

The following table demonstrates the sensitivity of the Company's equity to changes in the value of the cash and cash equivalents, trade and other receivables resulting from a reasonable possible change in USD against SGD, with all other variables held constant:

	2015 S\$	2014 S\$
USD - strengthened by 5% (2014: 5%)	15,142	409,396
USD - weakened by 5% (2014: 5%)	(15,142)	(409,396)

(c) Liquidity risk

Liquidity risk is the risk that funds will not be available to meet liabilities as they fall due and it results from amounts and maturity mismatches of assets and liabilities.

To ensure continuity of funding, the immediate holding company has agreed to provide continuing financial support to the Company to enable it to meet its liabilities as and when they fall due to the extent necessary.

Maturity analysis of financial liabilities

Financial liabilities of the Company comprise accrued expenses which are typically settled within 30 days.

15. Financial instruments

Fair value

The fair value of a financial instrument is the amount at which the instrument could be exchanged or settled between knowledgeable and willing parties in an arm's length transaction, other than in a forced or liquidation sale.

Financial instruments whose carrying amount approximates fair value

Management has determined that the fair value of financial assets and liabilities of the Company approximates their carrying values due to their short-term nature.

Notes to the financial statements
For the financial year ended 31 March 2015

16. Commitments

Future minimum rental payable under operating leases at the end of the reporting period were as follows:

	2015 S\$	2014 S\$
Within one year	35,641	100,053
Later than one year but not later than five years	—	50,026
	<hr/> 35,641	<hr/> 150,079

17. Capital management

The directors consider shareholders' equity as the Company's capital. The objective of the Company's capital management is to ensure that it continues to meet local regulatory total risk requirements and maintain satisfactory financial resources to support its business.

The Company manages its capital structure and makes adjustments to it, in light of changes in economic conditions. To maintain or adjust the capital structure, the Company may adjust the dividend payment to shareholders and monitor the liquid capital requirement by monthly review of financial resources to ensure that the capital is managed in an effective manner.

18. Authorisation of financial statements

The financial statements of the Company for the financial year ended 31 March 2015 were authorised for issue in accordance with a resolution of the directors on 27 April 2015.
